Important Safety Instructions

CAUTION PLEASE READ AND OBSERVE ALL WARNINGS AND INSTRUCTIONS IN THIS OWNER'S MANUAL AND THOSE MARKED ON THE UNIT. RETAIN THIS BOOKLET FOR FUTURE REFERENCE
This set has been designed and manufactured to assure personal safety. Improper use can result in electric shock or fire hazard. The safeguards incorporated in this unit will protect you if you observe the following procedures for installation, use and servicing. This unit is fully transistorized and does not contain any parts that can be repaired by the user.

WARNING

DO NOT attempt to operate if picture falls or no sound is heard. Stop using the unit and turn it off immediately if there is any smoke or burning smell. If unit is damaged, it could cause fire or electrical shock.

This product is designed for DC 12V. It is recommended to check with a trained "Authorized Dealer" for using this unit in a RV, truck or bus application.

DO NOT install unit where it may obstruct driver's sight or cause possible injury to passengers.
DO NOT allow installation to interfere with normal vehicle operations. Wiring and installation should not interfere with the brake pedal, steering wheel or transmission shift lever.

DO NOT remove any screws or hardware from vehicle to install products.

WARNING

Inspect any vehicle areas before drilling any holes for mounting or wiring of unit. Make sure to check behind installation area to prevent damaging any existing vehicle wiring or other connections. Failure to do so could result in vehicle malfunction or impaired vehicle operation.

All wiring must be routed safely and should not distract the driver's attention during normal operating conditions. DO NOT allow wiring to interfere with operation of the vehicle's brake pedal, shift lever or steering wheel.

DO NOT cut or modify any DIN cables with fuse built-in. This could render such protective circuit inactive and potentially result in permanent damage to the unit or vehicle.
Make sure both DIN cable and other wiring is not run where it may be cut or damaged.

The slots and openings in the unit is provided for necessary ventilation. These must not be blocked to ensure reliable operation.

CAUTION

For the best results, follow wiring diagram for products as shown in the manual.
Do not place unit on uneven or unstable surfaces, avoid dusty areas and unsealed doors, or openings where water may be splashed.

DO NOT watch the unit while driving. Distracting the driver from proper operation of the vehicle can result in possible accident or injury.
Proper installation allow the driver to only watch TV when the vehicle is stopped and the parking brake is applied.

DO NOT disassemble or modify the product as it may cause accident, fire or electrical shock.

Set the volume to a moderate level, which will prevent your hearing outside noises such as emergency vehicles.

CAUTION

Use provided parts. Over-sized hardware may cause an electrical short or result in product not being mounted securely.

Use correct voltage batteries only. Make sure to insert batteries observing correct polarity. Using old and new batteries is not recommended. Keep small objects such as batteries out of the reach of children. Swallowing them may result in serious injury.

Keep the remote control in safe place when not in use to insure that the remote control dose not interfere with the vehicle operation if it is dropped or shifts while driving.

DO NOT Install antennas where they could cause unexpected accident or injury to pedestrians.
